Amarnath Yatra: Sadhus reach Jammu ahead of commencement of pilgrimage on July 3

JAMMU BULLETIN BUREAU SRINAGAR, JUN 13:

Scores of sadhus have begun arriving in Jammu, the city of temples, for their onward pilgrimage to the cave shrine of Amarnath in the South Kashmir Himalayas beginning July 3. The 32-day pilgrimage will commence from the twin tracks, the traditional 48 km Nunwan Pahalgam route in Anantnag and the 14 km shorter but steeper Baltal route in Ganderbal on July 3. A day earlier, the first batch of pilgrims will leave Jammu's Bhagwati nagar base camp and Ram Mandir for the Valley. The shrine houses the naturally formed ice Shivalingam and over 5.10 lakh pilgrims paid their obeisance at the 3,880-meter-high shrine last year. "The sadhus have started arriving in Jammu city. Scores have reached our temple complex, which is one of the boarding and lodging centres for the Sadhus," said temple head Mahant Rameshwar Dass.

The famous Ram Mandir in the old city reverberates with chants in praise of Lord Shiva, as over 200 sadhus from across the country have reached here to take part in the annual yatra to the holy cave shrine of Amarnath. "All necessary arrangements, including round-the-clock free

Temperatures across Kashmir expected to come down slightly from Saturday

JAMMU BULLETIN BUREAU SRINAGAR, JUN 13:

Temperatures across Kashmir are expected to come down slightly by a few degrees from Saturday onwards, offering some relief from the prevailing heat-wave. However, the temperatures may remain a few degrees above the seasonal average, according to an independent weather observer, Kashmir Weather. He said the forecast up to June 15 indicates predominantly dry weather conditions across most parts of the region, although a few isolated areas may experience thunder-showers. Between June 16 and 17, the weather is likely to remain mostly dry, with a possibility of a rain spell or thundershower activity in some areas, particularly in the Jammu region, which has been witnessing intense heat in recent weeks. From June 18 to 19, dry weather is again expected to dominate, although a brief shower cannot be ruled out in one or two locations.

Meanwhile, dry and hot weather conditions persisted across the Kashmir Valley on Friday, although there was a slight dip in temperatures compared to the previous day. According to the Meteorological Centre Srinagar, Srinagar recorded a maximum temperature of 32.4°C, which is 4.4°C above normal. This comes a day after the summer capital registered a scorching 34.2°C on Thursday - an increase by 6.2°C above normal.
